

SANGEETHA N

Full Stack Developer

+91 74024 21212 — sangeethanickson.inbox@gmail.com — linkedin.com/in/sangeetha-n

PROFILE

Full Stack Developer with 3+ years of experience building scalable enterprise applications across compliance-tech, workforce management, and financial workflow domains. Experienced in delivering production-grade systems using React.js, Vue.js, Node.js, PHP, Kotlin, and cloud-integrated infrastructures with strong focus on backend systems, scalable APIs, performance optimization, and frontend architecture.

SKILLS

Programming Languages	JavaScript, Python, SQL
Frontend	React.js, Vue.js, Nuxt.js, Angular, Redux Toolkit, Tailwind CSS, Bootstrap, Material UI
Backend	Node.js, Express.js, Django, PHP, CodeIgniter 4, REST APIs
Mobile Development	Kotlin, Swift, Firebase, WorkManager, CoreLocation
Databases	MongoDB, MySQL, Firebase
Cloud & Storage	Azure Blob Storage, Google Roads API, Twilio
Tools & Libraries	Git, GitHub, AG Grid, Highcharts, Recharts, SignalR, Axios, Pinia, PrimeVue

EXPERIENCE

Full Stack Developer	May 2023 - Present
Zerosoft Technologies	Thoothukudi, India

- Delivered 8+ production-grade full-stack applications across compliance-tech, enterprise workflow, and workforce management domains with zero rollback incidents post deployment.
- Designed scalable REST APIs using Node.js, Express.js, Django, and PHP for high-volume operational and compliance data processing workflows.
- Spearheaded frontend architectures using React.js, Vue.js, Nuxt.js, and AngularJS, accelerating feature delivery cycles by 35%.
- Integrated secure payment gateway solutions including Razorpay, Stripe, and PayPal with subscription workflows, webhook handling, and transaction validation.
- Enhanced application performance through query tuning, lazy loading, caching strategies, and asset optimization, improving page speed and reducing API response latency by 30%.
- Crafted SEO-friendly frontend architectures with responsive UI design, structured routing, optimized metadata handling, and improved Lighthouse scores.
- Participated in client discussions to gather requirements, propose technical solutions, and support scalable product delivery.
- Mentored junior developers through technical guidance, debugging support, and code review workflows.

Frontend Development Intern	Jan 2023 - May 2023
Gove Enterprises	Tirunelveli, India

- Created responsive React.js interfaces supporting 5+ device breakpoints with consistent rendering across devices.
- Designed reusable UI components that reduced frontend development time from 3 days to under 1 day per feature.

Web Development Intern	Aug 2022 - Sep 2022
Code Genie Solutions	Tirunelveli, India

- Customized and extended ThemeForest templates using HTML and CSS to match client-specific requirements ahead of deadlines.

PROJECTS

Marine Emission Management Platform

- Designed a scalable REST API using Node.js/Express.js with MongoDB, incorporating JWT-based authentication, role-based access control, and database connection pooling to support multi-tenant operations for 50+ companies and 1000+ vessels.
- Devised complex regulatory compliance calculation engines for EU ETS, EU MRV, UK MRV, IMO DCS, and FuelEU frameworks, automating vessel compliance reporting workflows and reducing manual reporting effort by 90%.
- Constructed a React 19 frontend using Redux Toolkit with AG Grid, Highcharts, Recharts, and MUI X Charts for real-time emissions analytics, fleet monitoring, and operational performance visualization across 500+ vessel data points.

- Integrated Azure Blob Storage for secure multi-format file ingestion supporting CSV, XLSX, ZIP, RAR, and 7z processing pipelines with automated validation and error handling for 10GB+ operational datasets.
- Streamlined backend performance using Mongoose indexing, aggregation pipelines, Winston logging with daily rotation, and modular service architecture consisting of 34 controllers and 36 models, achieving 99.9% uptime and sub-200ms API response times.
- **Tech:** React.js, Redux Toolkit, Tailwind CSS, Material UI, Highcharts, Recharts, Node.js, Express.js, MongoDB, JWT Authentication, Azure Blob Storage, REST APIs

Maid to Sparkle – Cross-Platform Workforce Management System

- Delivered a production-grade workforce management platform for Android and iOS serving 3,000+ users with real-time GPS tracking, mileage automation.
- Developed a deterministic state machine-based mileage tracking system with offline buffering and automatic network recovery, achieving 99.9% GPS data integrity in unstable network conditions.
- Established secure single-device login architecture using device ID validation, Firebase authentication workflows, and MySQL atomic transaction handling.
- Created scalable REST APIs using PHP and CodeIgniter 4 with 20+ endpoints handling 10,000+ daily GPS updates with sub-100ms response times.
- Connected Google Roads API for route snapping and Twilio SMS services for automated customer notifications, reducing payroll discrepancies by 95%.
- **Tech:** Kotlin, Swift, PHP, CodeIgniter 4, MySQL, Firebase, Retrofit, Alamofire, WorkManager, CoreLocation, Google Roads API, Twilio

CrediDesk – Credit Management System

- Led development of an enterprise-grade credit management platform using Vue.js 3 and Nuxt.js with 209 modular frontend components, Pinia state management, and PrimeVue UI architecture.
- Produced 46 API service layers with JWT authentication, automatic token refresh workflows, and secure RESTful communication patterns.
- Designed real-time operational dashboards with SignalR integration, custom SVG data visualizations, multi-language localization using Vue-i18n, and permission-based access control systems.
- Improved frontend performance through lazy loading, code splitting, and efficient Vue reactivity patterns, reducing initial bundle size by 30% and achieving 90+ Lighthouse performance scores.
- **Tech:** Nuxt.js, Vue.js, Pinia, PrimeVue, Tailwind CSS, Axios, SignalR, Vue-i18n, Vuelidate

EDUCATION

M.Sc. Networking & Information Technology St. John’s College of Arts & Science, Palayamkottai	2021 - 2023
B.Sc. Computer Science Government College of Arts & Science, Sathankulam	2017 - 2020
